**Mach 7 Technologies and AOKAEY LLC Sign Reseller Agreement  
For Enterprise Image Management Solutions**

**Agreement Provides IT Services Provider with PACS-Neutral Software Technology**

**SCHAUMBURG, IL -- October 31, 2009** -- Mach 7 Technologies, a global provider of flexible, PACS-neutral healthcare image management solutions, has signed a reseller agreement with AOKAEY LLC, a healthcare information management services company focused on deriving value, usefulness and actionable information in data acquisition. Under the terms of the agreement, AOKAEY LLC will resell Mach 7 Technologies' Keystone Suite™, an Enterprise Image Management Platform.

The addition of Mach 7 Technologies' Keystone Suite immediately positions AOKAEY LLC to enter the fast growing PACS neutral solution marketplace with a proven product for designing and implementing solutions for PACS-Neutral Archiving, Intelligent Image Navigation, DICOM Attribute Normalization, Open EMR Image Enablement, and monitoring of the Enterprise Image Continuum.

As an Enterprise Image Management Platform, Keystone Suite is designed to enhance existing PACS investments by enabling improved movement and storage of image data using PACS-friendly / PACS-neutral software solutions. Because they free healthcare enterprises from the restrictions of vendor-specific architectures, PACS-neutral solutions can lower switching and replacement costs, and enable users to create cost-effective, common clinical image viewing solutions in heterogeneous, multiple medical PACS environments.

"AOKAEY LLC delivers strong healthcare IT consulting services with imaging-specific data migration and archiving solutions," notes Doug Schwab, VP and GM of Mach 7 Technologies.

"We look forward to introducing our PACS-neutral solutions through AOKAEY LLC as they provide valuable services to their current clients and seek new opportunities in the Healthcare IT market."

“The addition of Keystone Suite and the Keystone Utilities are a perfect complement to our vendor agnostic archive data services and data conversion/migration offerings” says Okaey Ukachukwu, President of AOKAEY LLC. “AOKAEY LLC can now deliver to its clients a flexible, state-of- the-art solution for PACS-Neutral Archiving and Intelligent Image Management along with services to optimize their legacy data.”

### **About AOKAEY LLC**

Technology advancement and standards pervasion demand processes and systems improvements for the healthcare information technology market. Legacy systems with limited interoperability and of proprietary characteristics are being replaced by sophisticated technology enabling improved workflow, better security, interoperability, accessibility and most importantly improved patient care and saved lives. Technology (systems) obsolescence continues to drive data stratification, disconnections and silos as the legacy systems are replaced. For issues such as above, AOKAEY LLC has offered services and solutions since August 2007. For additional information about AOKAEY LLC, please visit the AOKAEY LLC web site at [www.aokaey.com](http://www.aokaey.com).

### **About Mach 7 Technologies**

Headquartered in suburban Chicago, Mach 7 Technologies is a global provider of innovative, flexible, PACS-neutral image management solutions that enable healthcare enterprises to better control, share and access medical imaging data. Mach 7 Technologies develops software products that solve sophisticated image management challenges for hundreds of hospitals, imaging centers and clinics worldwide.
