### **Mach 7 Technologies' PACS-Neutral Archive Goes Live at U. S. Vascular**

**Innovative Management Services Company to Leverage Mach 7's  
Flagship Keystone Suite™ Software Platform to Enhance Patient Care**

**Schaumburg, IL – February 2, 2010** -- Mach 7 Technologies, a global provider of flexible, PACS-neutral healthcare image management solutions, has been awarded a contract by U.S. Vascular in Atlanta, Georgia and has installed Mach 7's Keystone Suite software in their Albany, New York data center. In Atlanta, the first of many planned Vascular Centers has gone live with the state-of-the-art application and will be storing images in the Keystone Archive and providing access to the stored images with the Keystone Clinical Viewer from their EMR.

"The Keystone Suite will enable us to manage our imaging data and provide the necessary clinical access to enhance patient care," notes Ernie Gutierrez, Director of Operations for U.S. Vascular. "The application installed without issue and integrated very easily and seamlessly with our existing modalities and upstream systems. We are very pleased with our choice of the Keystone Suite and our decision to work with Mach 7 Technologies."

"Mach 7 Technologies is excited to be selected by this leader in the vascular access center field," says Tom Riesenbergh, CEO of Mach 7 Technologies. "We look forward to growing with U.S. Vascular as they expand availability of their innovative model of care by bringing live additional centers across the nation."

#### **About U.S. Vascular**

Headquartered in Atlanta, U.S. Vascular is a management services company that provides support to outpatient vascular access centers. All of the locations are dedicated to the identification and prompt treatment of vascular access complications of patients with End Stage Renal Disease (ESRD). U.S. Vascular clients' centers are designed and built specifically to integrate the care that a patient receives at a dialysis center with the specific needs that are the

most significant to the patient's dialysis access preservation. For additional information, please visit [www.USVascular.net](http://www.USVascular.net).

### **About Mach 7 Technologies**

Headquartered in suburban Chicago, Mach 7 Technologies is a global provider of innovative, PACS-neutral image management solutions that enable healthcare enterprises to better control, share and access medical imaging data. Mach 7 Technologies develops software products that solve sophisticated image management challenges for hundreds of hospitals, imaging centers and clinics worldwide. For additional information, please visit [www.Mach7T.com](http://www.Mach7T.com).
