

Singapore IT firm Mach7 forms strategic partnership with Malomatia

(Doha, Qatar, March 17, 2009): On Tuesday, HH the Emir Sheikh Hamad bin Khalifa Al-Thani discussed the teaming between Malomatia, and Singapore's Mach7 Technologies during the state visit of President S.R. Nathan of Singapore.

Malomatia, a local Qatari company that specializes in providing design, development and consulting services for eHealth, eGovernment and eEducation IT solutions, will with Mach7 Technologies implement new pioneering IT technology products in The State of Qatar. Mach7 Technologies, a Singapore business, has developed a new generation of software that collects, stores, organizes and transmits medical data in a health system. This new software is being deployed globally to resolve and improve complex medical workflow problems.

Mr. Feroz Siddiqui, Centre Director (Doha) from International Enterprise (IE) Singapore, the agency under the Ministry of Trade and Industry spearheading the development of Singapore's external economic wing, stated "The teaming of these two innovative and visionary IT companies embraces a new era for both Qatar and Singapore in the development and delivery of revolutionary, world class healthcare clinical IT solutions."

Mr. Thomas Riesenber, President and CEO of Mach 7 Technologies, provided the following statement, "Keystone Suite is an exciting new software product that provides a new approach to managing medical image data. Leveraging the capabilities of this new product requires strategic partnerships with professional consulting firms that are committed to the healthcare IT market. In Qatar and throughout the GCC, Malomatia is the leading healthcare IT professional consulting. We are excited to have a strategic relationship with Malomatia."

Hamad Medical Corporation, under the direction of Dr. Hanan Al Kuwari, Managing Director of HMC, has successfully implemented Mach7's Keystone Suite software product to collect, store, and organize medical data. This solution speeds the introduction of new radiology IT solutions that are about to be deployed at HMC. Mr. Mohamad Mubarak Al Noimi, stated "Using in-house innovation and best practice approach with Keystone Suite from Mach7 Technologies combined with the local support of Malomatia, we are well positioned to continue the development of HMC's world class research in medical data deployment. These state of the art new healthcare IT solutions will not only benefit the people of Qatar but will lead the world in the implementation of new IT healthcare Technology".
