

Mach7 Technologies Welcomes Penn State Milton S. Hershey Medical Center to a Growing Global Family of Customers

Another leading academic medical center turns to Mach7 Enterprise Imaging Platform to improve clinical data sharing and interoperability.

Burlington, VT – March 8, 2016 – Penn State Milton S. Hershey Medical Center joins the growing family of organizations leveraging [Mach7 Enterprise Imaging Platform](#) to manage VNA archiving, communication, exchange and sharing of medical imaging data.

Penn State Hershey, one of the leading academic medical centers in the U.S., provides a range of fully-integrated patient care services to the people of central Pennsylvania and to a growing care network.

“We are thrilled to collaborate with Penn State Hershey,” said Eric Rice, Chief Technology Officer, Mach7 Technologies. “Our advanced healthcare IT platform allows Penn State Hershey to own, manage, and share their unstructured clinical media. Mach7 enterprise imaging technology simplifies scalability, and expands clinical data access helping Penn State Hershey achieve their key business and care delivery goals.”

Penn State Hershey Health System consists of the Penn State Milton S. Hershey Medical Center, Penn State Hershey Cancer Institute, Penn State Hershey Children’s Hospital, Pennsylvania Psychiatric Institution, Penn State Hershey Rehabilitation Hospital, and Penn State Hershey Medical Group. Penn State Milton S. Hershey Medical Center is a 551-bed academic medical center consisting of 3 on-campus outpatient facilities and several office buildings. Over 27,000 inpatient visits, 64,000 emergency room visits and 28,000 surgeries are performed each year at the medical center. The Medical group includes 63 clinics and more than 900 clinicians.

Penn State Hershey joins Mach7 Technologies’ global family of customers and technology partners. This global network includes similar large academic medical centers, IDNs, regional medical centers and independent imaging centers. The flexibility and scalability of Mach7 Enterprise Imaging Platform supports cohesive workflows for organizations of all sizes by bridging traditional patient data sharing and interoperability barriers.
